Nursery & Garden Industry  
Queensland

# Container Media Management Workshop

## MANAGING GROWING MEDIA IN NURSERY PRODUCTION

*Growing media is a vital component in producing and maintaining the highest plant quality in containers. Growing media also has a huge influence on water use efficiency in nursery production supporting efficient irrigation systems.*

*The Container Media Management workshop is designed to provide an introduction to growing media, its components and properties*

The 'Container Media Management' workshop will be presented by Farm Management System Officer, Lex McMullin. The workshop will discuss the various substrates, amendments and additives utilised in nursery production, and highlight the parameters that can identify a quality growing media blend.

This event is being kindly supported by Bassett Barks.

*Workshop spaces are limited so bookings are taken on a first come basis.*
