VENUE	Aspley Nursery, 106 Hunt Road, Burpengary, Queensland, 4505		
LEVEL	Intermediate		

Farm Management System Energy Field Day

Nursery Production

Thursday September 15 provides a fantastic opportunity to learn more about reducing your energy costs in nursery production. Aspley Nursery has undertaken major infrastructure and practice changes at their Burpengary site to reduce their escalating energy costs. Come along to the September 'Field Day' at Aspley Nursery and learn just how your business can achieve similar results.

Energy costs continue to rise and place further pressure on every business in Australia. Production Nurseries are no different, and with each energy bill growers become more enthusiastic towards making on-farm change or upgrades to reduce their escalating energy costs. Often this is as far as it will progress due to the availability of support and reliable information.

Growers frequently find it difficult to identify just where to start, who should be contacted to provide honest and reliable information, what upgrades or changes provide the best return on investment, and is my business too small or too large to achieve these benefits?

Industry experts in their field, along with feedback from growers who have been there and done that, will answer those nagging questions regarding the cost effectiveness of upgrades and just will it work for me.

Come along to the Field Event and see and hear how Aspley Nursery invested in the future and managed to reduce their energy use through an Energy Savers Type 2 Audit and participating in the RWUE-IF initiative.

REGISTRATION & TAX INVOICE

.....

ABN	92 914 028 835	JOB NO	260
